Cromwell Glad Gardens
R. D. 1 Salem, Ohio

Foreword

In making up this 1939 price list it affords me the opportunity to visit with my old friends and I hope make a host of new ones. My sincere appreciation to all, for the kind letters and repeat orders are evidence that we have gained your confidence. We will try our best to hold it. Compare my prices and quality with any other growers.

1938 was a fair year for us and provided additional opportunity to select some of the new varieties.

There seems to be a general feeling that business of all kinds will soon be on the upward trend. We look forward to a turning point early in 1939.

We are reducing the number of varieties so as to allow more time for the newer ones each year.

We list some of the newer originations and best of the older varieties that will prove good in any Glad Garden. Feel free to let us know of your joys and sorrows; we are always glad to share in your joy of growing them and will help in any way we can to overcome your sorrows or disappointments.

Read Before Ordering

SIZE OF BULBS—Large bulbs (L) are $1\frac{1}{4}$ inches in diameter and up, and best to plant for large blooms; medium bulbs (M) are $\frac{3}{4}$ in. up to $1\frac{1}{4}$ inch in diameter and will bloom but will be some smaller, not quite as early as large ones. Small bulbs are under $\frac{3}{4}$ inch and may throw a flower the first year if planted fairly early.

GUARANTEE—If bulbs bought from us are not true to name we will replace them or refund your money.

SHIPMENT—Spring shipment starts about Mar. 1, weather permitting; if wanted earlier specify when ordering

TERMS—Cash before shipment or 25% deposit, balance C. O. D. 25% will hold any order until Mar. 1.

SALES TAX—All orders from Ohio which are not for resale, please add 3 cents sales tax.

THRIP—For the past few years we have soaked all bulbs we plant and urge every one to do it, using Bichloride of mercury (Corrosive Sublimate) one ounce to 7 gal. of water, and soak 7 to 8 hours. This will kill any thrip or disease that may be on your bulbs.
